

Client: STANTA

Aim: Flexible security solutions for self-contained units with business centre.

Amthal Steps Up Security for STANTA

When award winning, independent enterprise agency STANTA was looking for an all encompassing security system for its office building in St Albans, it looked no further than local security specialist Amthal Fire & Security.

Not for profit service STANTA has been established for over thirty years, serving to help start, grow and develop successful businesses in the St Albans area with training and 7,500 sq. ft. of low-risk office space to rent in its dedicated Business Centre.

The centre offers 19 dedicated units for business start-ups and when it came to security, each one required a dedicated alarm and individual door entry system. This was alongside the need for an overall alarm and access control solution for the building, coupled with CCTV at the front and back to secure the premises.

Says Mel Brown, Executive Director of STANTA Business Enterprises: "We knew we had complex requirements with each individual business needing its own alarm and access system, alongside the security needs of the building itself. Amthal made it their priority to understand this and design a bespoke system that ensured all units could be separately secured in one solution.

"Ever since the installation, Amthal has stayed in regular communication to deliver an exceptional service, offering maintenance as necessary, alongside advice on how to keep the building and its users safe and secure. For us, it is an added bonus that they are a local company and dedicated member of the Chamber of Commerce as it supports our ethos to develop the business community in St Albans."

PAUL ROSENTHAL, SALES DIRECTOR OF AMTHAL FIRE & SECURITY ADDED: "WHAT OUR WORK WITH STANTA DEMONSTRATES IS OUR COMMITMENT TO ENSURING SECURITY MEASURES, RIGHT FROM INITIAL DESIGN, THROUGH INSTALLATION AND MAINTENANCE, ACHIEVES THE NECESSARY REQUIREMENTS OF INDIVIDUAL BUILDING AND ITS PURPOSE.

"IN STANTA'S CASE, THEY WERE INITIALLY CONCERNED ABOUT THE COMPLEXITY OF OPERATING SEPARATE SECURITY SYSTEMS IN ONE, BUT WE COULD QUICKLY PUT THEIR MIND AT EASE. AND NOW WE HAVE BECOME THEIR LOCAL, TOTAL SOLUTION PROVIDER AND THE START-UP BUSINESS COMMUNITY IN ST ALBANS CAN BE ASSURED THEIR SIGNIFICANT INVESTMENT IS SAFE AND SECURE."

Amthal Fire & Security is accredited by the Security Systems and Alarm Inspection Board (SSAIB) United Kingdom Accreditation Services (UKAS) and British Approvals for Fire Equipment (BAFE.)
