Job Description

Role: Fire Service & Reactive Engineer
Location: Field based – London & Home Counties

Company Overview

Amthal Group is a newly formed independently owned group of established businesses who design, install, maintain, and monitor electronic life safety and security systems. Amthal Fire & Security (AFS) established 2000 operate from St Albans in Hertfordshire with current sales of £5.5m and 65 team members.

Integrated Protection Maintenance Services (IPL) established 2005 operate from Coleshill in Birmingham with current sales of £1.9m and 14 team members. The combined vision of the group is to scale a sustainable and dynamic group of businesses through continuous investment & development in its people.

With a mission to provide compliant protection, unrivalled customer experience and professional service. Committed to achieving operational excellence, through empowering and developing, exceptional talent, to maintain our friendly and supportive environment.

Role Overview

In line with Amthal's growth plan we are continuing to expand our engineering teams. This is a highly rewarding position, joining a strong and dedicated operations team, providing a high level of job satisfaction.

The successful candidate must be self-motivated and able to organise themselves, as well as contributing to the operational team, whilst delivering the highest level of customer service to all clients. They should have the ability to carry out preventative servicing and fault find as required on electronic security systems.
